WHO WE ARE

HIN Media is a company dedicated to assisting small businesses around the country in two specific areas.

WHAT THEY'RE SAYING:

FIRST, we are creators of DIGITAL Publications, brochures, digital mailers, nearly anything that you send in the mail.

No more plain PDF's. HIN Media can bring those boring lifeless PDF's to life and impresses potential customers.

Digital flipbooks allow you to take any of those documents, publications and turn them into actual digital flipbooks that turn pages just like the document was in your hand.

WHAT IS A DIGITAL FLIPBOOK?

A digital flipbook is a format for presenting content online as an engaging interactive HTML5 document that can be viewed in any browser and on any screen. Converted from a plain PDF via technology, each flipbook has a fresh streamlined look with a realistic page flip effect. Your company branding, interactive videos, and outbound links, and many more.

INTERACTIVE & ENGAGING TO
CAPTURE YOUR VIEWER ATTENTION

IT'S TIME TO **BREAK** **UP** WITH SENDING BORING PDF FILES

Online Digital Flipbooks are super easy to share and track. Go beyond heavy PDF's: Send your flipbook as a direct link available on any device, embed it on your site, generate a QR code for your digital flipbook. You can track, measure and analyze how people interact, by tracking views, the most engaging pages, and clicks in real time.
