

Permanent. Eco-Friendly. Cost-Effective.

About

We bring over 40 years of experience in the geotechnical repair and remediation industry.

We are the only technology that offers these revolutionary, affordable, and environmentally friendly solutions.

Our patented system revolutionizes how soil remediation and repairs are made.

Licensed general contractors.

PATENTED
TRENCHLESS
TECHNOLOGY

Deep Horizons Injection Grouting

Permanent. Eco-Friendly. Cost-Effective.

SERVICES

when time is a factor

avoiding disruptive road closures
unstable soils disrupting infrastructure

when costs are a factor

budget constraints

when containment is a factor

oil, gas, water, and sewer encapsulation
erosion and corrosion prevention
abandonment remediation
soil and water containment

our brand was built upon

creativity and innovation.

Permanent Embankment Repair
Highways, Runways, Railways, Waterways
Life-Saving FEMA relief
Environmental Considerations

this patented technology produces outcomes of

quality and satisfaction.

Fast-reactive polymers in excess of 100 feet.

Repair without excavation by target grout injection
Increased sub-soil bearing capacity and stabilization
Void fill, preventing total collapse
Underground storage containment
Water displacement
Below-grade, sub-surface structural stabilization
