NAIROBI.

DEAR SIR/MADAM,

RE: REQUEST FOR DONATIONS.

Athi- River GK primary is a public school located in Kitengela town. We have a population of 1824 pupils in total: boys 920 and girls 904 in number .We have been facing various challenges. Some of the challenges are listed as follows:-

1. HUNGER: - Most of our pupils come from very needy backgrounds, some of them come to school not having eaten anything from home in worse situations even dinner is a miracle.
2. SANITATION: - Being in the cholera era hygiene is very important. Water being a very important commodity in maintaining proper hygiene and sanitation we miss out on this important necessity.
3. CLASSROOMS: - The condition of the classrooms are wanting i.e. the floors are in a bad state, lack of windows and doors.
4. FURNITURE: - Having overflowing number of learners, the available resources i.e. desks are inadequate to accommodate all the learners. We may get learners who sit five in a desk making writing a challenge.
5. WIFI CONNECTION: - Recognizing that we are in the digital era, we would like to be assisted in getting affordable Wi-Fi connection in order to be able to deliver effectively in the CBC curriculum.

We would really appreciate if you would help us take care of our learners in the above ways and more.

Yours faithfully,

Jeremiah Maloi
