P.O. Box 333 - 00209.

RE: APPRIATION FOR HELP.

I am writing this letter for appreciating the help you extended to this community for the help of water and books.

We say thank you.

The mobile Library had really helped to increase the enrolment in our school.

The population of students has gone up. Many students want to join school.

Again, the water will help us to improve on food farming, otherwise the draught has hit us most. No more domestic animals, almost finished by dry spell.

The school is next to Chyly Conservation we need help from donor community to help these vulnerable girls to get good education. We have to conserve wildlife and also our heritage, so that it will not get finished from the universe.

Thanks a lot
Faith Kenya Mission
