

REGENT FLORAL & MERCANTILE

PRICING GUIDE . 2023

REGENT &
FLORAL
MERCANTILE

H E L L O

Often we are asked about average cost of wedding florals. This is the hardest question to answer with so many variables such as flower choice, stem count, labor, and style. It is said that the average couple will spend 10-20% of their wedding budget on florals. Our goal is to help you achieve the wedding of your dreams at a reasonable price.

We offer a free consultation to talk through your ideas for your special day. From there we will work with you to develop your ideas and individual style to turn your dreams into a reality.

We are so excited to work with you,
feel free to ask us any questions you may have.

We understand that preparing a floral budget can be overwhelming and we are happy to help. The time of year, growing season, weather, stem count, type of container, and labor are all key elements that determine pricing. The cost of some flowers will periodically rise based on the season, while others remain steady. We hope that our pricing guide, along with our support, will help you feel confident in developing your floral budget.
